

Morgan Street Birch Run Homeowners Association Architectural / Landscaping Modification Request

Roof Replacement and or Repair

Applicant Name: _____

Applicant Address: _____

Asphalt Roof Mounted Specification

Shingle Material: Asphalt

Manufacture: Owens Corning

Brand: TruDefinition® / Duration ®

Shingle color: “Driftwood”

Color Description: Owens Corning “Driftwood” is described in the literature as a “multicolored shingle with muted red, gray, and brown shades with mix of dark and medium brown, sage green and golden tan granules.

Other Manufactures: in addition to Owens Corning there are several other manufactured including but not limited to CertainTeed that offer a “Driftwood Color”. While the descriptor is the same the color is not the same. The CertainTeed product is NOT approved and NOT to be installed.

I attest that I have read and shared with the contractor the Associations specification and requirement for asphalt shingle roofing materials prior to securing a proposal. I also attest and that the requested to move forward with roof repairs or replacement will comply with all requirements established by local and state, code, regulation, rule, and or permits and the HOA asphalt shingle specification detailed above, which has been provided, in writing, to the installer.
